

READ USA

SPONSORSHIP OPPORTUNITIES

The ability to read by third grade is critical to a child's success in school, life-long earning potential and their ability to contribute to the nation's economy and its security.

-Annie E. Casey Foundation Research

Believing in Every Child's Potential

READ USA believes that every child should have boundless opportunity ahead of them in life. We also believe that every child has the potential to achieve any future they desire, if provided with the right tools and resources to develop and unleash that potential.

READ USA believes it all starts with literacy.

Literacy is the essential skillset that empowers anyone – no matter their background, socioeconomic status, or real or perceived limitations – to achieve their dreams and fullest potential. Literacy has the power to create lifelong learners unlike anything else. Improving literacy is also how we uplift our most vulnerable neighbors and communities by empowering them to imagine and create their own future.

Yet, our nation continues to experience a literacy crisis. This crisis is statistically proven in Florida, where 67% of our elementary students are not reading on grade level by the end of 3rd grade, a key indicator of future academic – and lifelong – success.

READ USA's proven, evidence-based interventions aimed at helping children achieve grade-level reading proficiency are measurably closing the literacy gap in Duval County. We have discovered and refined the formula for individual development that empowers self-worth, drive, and lifelong learning.

Book Choice & Ownership

At our annual Book Fairs, students choose free books to build their at-home libraries, as we know that 61% of low-income homes have zero books in them. Access to books in the home is proven to engage children in reading and improve their literacy skills while experiencing a newfound joy of reading.

Multicultural Literacy

We have seen first-hand the importance of providing children from all backgrounds with access to books depicting people who look like them. Our free Multicultural Literacy offerings include online read alouds, resources for parents and educators, interviews with diverse local leaders, and our very own fictional character, Jeremy, who visits with local leaders and publishes a new Jeremy's Journey volume every month.

Literacy Tutoring

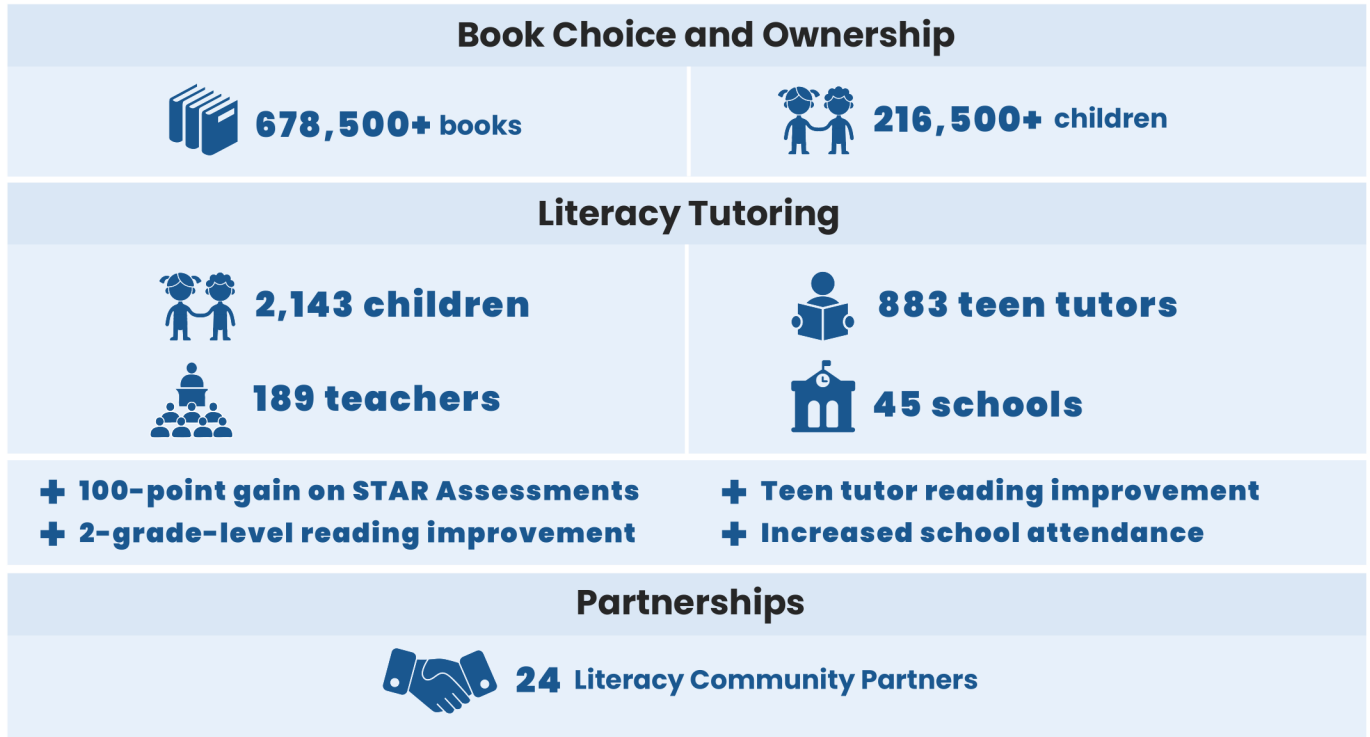

We employ teenage tutors to provide daily, intensive, one-to-one tutoring focused on reading fluency, phonemic awareness, and comprehension skills. Literacy Tutoring is measurably improving the reading skills of thousands of elementary students across Duval County while providing valuable workforce development skills for our teen tutors.

Literacy Professional Development for Educators

We know that teachers are vital to closing the literacy gap. To support educators with quality reading instruction, we created a professional development program that provides engaging and effective tools to help teachers help their students reach their full reading potential.

Our Impact 2011-2022

READ USA's comprehensive, research-based literacy programming is working:

Elementary students in READ USA Literacy Tutoring:

- Gained 100 points on STAR Reading Assessments, compared to 81 points among comparison students.
- Increased their skills by two grade levels on reading accuracy and by one grade level on comprehension, reading rate, and fluency.
- Stimulated gains in reading performance among their teen tutors.
- Showed higher on-average school attendance rates.

Our Mission

READ USA opens pathways for children in under-resourced communities with book choice and ownership, peer-to-peer tutoring, multicultural literacy programming, professional literacy instruction development for educators, all to positively impact grade level reading proficiency, support workforce development, build a diverse teacher pipeline, and end the cycle of generational poverty.

READ USA has provided every opportunity, for every student, to have access to what they need to have that gap bridged.
